

Time-limited offer

Singleron 

Want to proof that your research is unique?

# Get FREE single cell RNA-seq library preparation!\*

Singleron offers FREE single cell RNA-seq library preparation for up to three samples from such tissues that Singleron's Service Lab has not processed in the past.

Singleron's Service Lab has already successfully processed samples from more than 400 different tissue types.

We are ready for the challenge!  
Are you?

\* The first three customers submitting fresh samples to Singleron Biotechnologies GmbH (Cologne, Germany) after 25.02.2022 are eligible for the offer. The samples must originate from such tissues that Singleron has not processed before 25.02.2022. The samples must originate from species with available reference genome. Up to three samples from each eligible customer qualify for the offer. The sequencing costs for 90GB are not included in the offer. The offer is valid for quotations signed before 31.03.2022. Independent from your sample type, we offer free project consultation.
